# INFOSHARE™ DISCOVERY MODULE EXPEDITES THE DISCOVERY PROCESS

01

Processes all discoverable documents that are scanned, uploaded or generated by the system

02

Documents can be organized into packages

03

Provides redaction and Bates numbering features: System saves original and redacted documents side-by-side

04

Packages can contain documents, images and recordings

05

Options to download discovery packages to CD or send to the e-Discovery Portal

06

Dual authentication access to the portal can be applied in accordance with the Federal CJIS Security Policy

Swift, efficient delivery of discovery packages to registered attorneys

## InfoShare's™ e-Discovery Portal

Attorneys can request discovery through the portal

Provides defense attorneys 24/7 access to discovery, as soon as it is posted

In states where applicable, fees can be collected via the portal, using credit cards or Paypal
