InfoRecording

CSI's Interview Room A/V Recording Software

Seamlessly integrated with InfoShare™Case Management
Provides the Ability to Conduct Remote Interviews and Store the
Recording Directly to the Case File

Accessible on desktop and mobile devices!

InfoRecording's sophisticated features let you manage the interview process and store the completed interview as part of your case

01 Can accommodate up to four channels, allowing up to four video input devices at four participating locations

02 Sound indicators, bookmarks, mute/un-mute speakers and mics are adjustable for attorney/client privilege

03 Compatible with most cameras and microphones

04 Acts as a broadcast server to let authorized users watch the live interview remotely

05 Completed interview is saved and can be linked to the case

06 Interviews can be burned to disk

Contact CSI and see how you can manage the interviews in your caseload with InfoRecording!
