Records Management System

REVOLUTIONIZES DATA COLLECTION AND REPORTING
For Public Safety Agencies

A comprehensive records management system for both local and regional law enforcement and fire-fighting agencies

Totally integrates with your computer aided dispatch, e-ticketing. And mobile systems

Configurable for a regional or single agency

Individual agency memebers of a regional center can maintain their own identity, including logos and protocols

Supports your agency's workflow and report generation requirements

Provides streamlined data capture/storage and report generation

Features

01 Regular and supplemental reports generated according to your agency's format and requirements

02 Configured for your agency's workflow

03 Completed reports automatically forwarded for approval

04 Applies digital signatures

05 Totally integrated with other InfoShare modules, including e-Ticketing, CAD, Investigation and Prosecutor modules

06 Police reports can be electronically submitted to the Prosecutor's Office, with all supporting documents

07 Reports on incident data are generated to analyze incident and unit activity

08 The mobile RMS version for MDT's is available for tablets on android and i-pad platforms

09 Embedded interface with LiveScan automatically captures prints, palms and photos at booking and stores them to the case in the RMS
